

GAME RULES

- 1** Select a challenge. Each challenge provides specific hints about the lily pad and one or more fish:
 - A lily pad icon indicates the location of the lily pad.
 - A fish icon indicates both the color and orientation of the fish.
 - An arrow indicates the direction in which a fish is chasing a smaller fish, without revealing its color. The arrow will never be the smallest fish.
 - A colored circle indicates the location and color of a fish, without revealing its orientation.
 - A white circle indicates the location of a fish or lily pad, without revealing color or orientation.
- 2** Place all fish and the lily pad on the game board taking into account the following rules:
 - Two fishes cannot be placed directly horizontally or vertically next to each other; however, diagonal placement is allowed.
 - A fish can be placed directly next to the lily pad.
 - Each fish must face toward the next smaller fish. The distance between them doesn't matter, provided their line of sight - whether horizontal, vertical, or diagonal - isn't blocked by a lily pad or another fish.
- 3** You successfully solved the puzzle when you placed the lily pad in the correct spot and all the fish are arranged in a "chain" from largest to smallest. There is only one solution, which you can find at the end of the booklet.
